

Visa Debit Card Information

What should you do if you are planning to travel and use your SCSB Visa Debit Card?

- Call your local branch and let them know your travel plans, including dates and locations. This will allow us to put a note on our system so that our fraud monitoring service knows you are traveling outside of your normal spending patterns.

What should I do if my card is lost or stolen?

- During business hours, call your local branch. The staff will assist you in getting the lost or stolen card closed and a new card ordered. In addition, we want to make sure you do not have unauthorized transactions on your account.
